

Bugle School

Modern Foreign Languages (French) Curriculum Intent

At Bugle School, we believe that learning a modern foreign language opens children's minds to new cultures, perspectives and opportunities. Through our French curriculum, supported by **LanguageNut**, we aim to foster a love of languages and develop pupils' confidence in communicating in another language.

Our French curriculum provides a progressive and engaging learning journey, enabling children to develop skills in speaking, listening, reading and writing. Through interactive lessons and regular opportunities to practise and apply their learning, pupils build vocabulary, improve pronunciation and develop an understanding of French grammar and sentence structure.

We aim for all children to:

- Develop confidence and enjoyment in learning and using French.
- Communicate ideas and information through speaking, listening, reading and writing.
- Build secure vocabulary and grammatical knowledge through a structured sequence of learning.
- Appreciate and understand French culture and traditions, while developing respect for other languages and cultures.
- Develop language-learning skills that support future language study and lifelong learning.

Using LanguageNut, pupils benefit from a varied and interactive curriculum that reinforces classroom learning and enables them to revisit and practise key knowledge regularly. By the end of Key Stage 2, pupils will have developed the confidence, curiosity and foundational language skills needed to continue their language-learning journey at secondary school and beyond.
